

CONGA SERVICES

Realize quick implementation and maximum ROI for your Conga solution with just the right service package

Customers can expedite implementation and realize maximum value of their Conga solution with Conga Services. We've designed specific packages for each of our solutions that allow you to get up and running fast with just the right amount of support from our team. Whether you are looking for a QuickStart best practice overview or a hands-on implementation, our Services team is here to help.

QuickStart

Get started with customized offerings across our portfolio. Use advisory or implementation services to quickly get your first template, action or view deployed in your Production environment.

Accelerate

Let us help you configure templates, customized views and more. Our dedicated technical experts will answer questions and assist in deploying your solution to get you up and running fast.

Transform

Looking for more of what our Accelerate package offers? Our Transform package takes your solution to the next level by providing additional expert design and implementation services, resulting in a personalized and customized rollout.

Custom Statements of Work

Conga Services is happy to develop a customized solution to meet your unique business needs. Harness our technical and business experts to not only deploy technical solutions, but also employ best practices. We can help you plan and manage company-wide change, creating marketing and business readiness that will lead to highest adoption of new solutions, processes and tools.

Contact us today and maximize the value of the Conga platform with expert advice from our 5-star rated Services team.

About Conga

Conga® developed its suite of enterprise-grade applications to help businesses using the Salesforce Sales Cloud remove systems and process pain points and fill the gap in Salesforce out of the box. The Conga Suite, which includes Conga Composer—a top paid application on the AppExchange—simplifies and automates data, documents, contracts and reporting.
